

BKB SOLUTIONS

PARTNER FOR SAP SUPPLY CHAIN PRODUCTS

WE MAKE YOUR IDEAS HAPPEN.
AS AGREED.
WITH PRECISION.

BKB Solutions – We live SAP

BKB Solutions is an expert in SAP consulting and development projects. Over the past 15 years, we successfully implemented the ideas of our customers' to their projects numerous times.

Our main operational area is within the support of materials- and supply chain business management processes.

Although our consultants have an extensive skill-set that makes them an asset in any project role, our Core module competences lie within consulting and development areas of: **SAP EWM, Logistics Execution, MM, SD, WM**

You can count on our expertise and experience.

Our knowledge will help you identify and successfully mitigate risks that might arise.

We are flexible in tailoring our services to your needs. We give expert advice on what you need and deliver what you have in mind.

The BKB project management philosophy

Business Our colleagues have a deep business understanding, but we know all companies are unique and we strive to find the best fit for your needs.

Communication We know that the best solution always comes through transparent and structured communication with our clients. WE together can conquer a any challenge.

Consulting We use our vast knowledge base from previous successful projects to give you advice on your challenges, but you retain full control.

We only choose the best candidates to work for us. Our quality management system and the constant conscious training of consultants guarantees efficiency throughout the implementation of the tasks entrusted to us.

Our efficiency, solution oriented thinking are key to keeping operating costs consistently low while keeping you also satisfied.
